Channel Rollup & Auto Lock Arm

Automatic Lock Arm

The Automatic Locking Arm awning utilises round guide bars that are fastened top & bottom. Arms fitted to each end of the bottom rail can be guided freely & with a roll of the wrist, the rail unlocks on the guide bars & fabric can be moved up or down & relocked at any position. Giving the ultimate flexibility in light control & is available with an optional pelmet.

Channel Rollup Awning

The Channel Rollup fabric awning is user friendly & a practical solution to verandas, decks & patios. Ideally fitted between walls or posts, it utilises a channel system to provide tracking & locking points for the fabric skin & bottom rail. The channels & mounting brackets are powder coated to suit individual tastes.

Features
